ارايه توضيحات به سوالات داوطلبان

No	Bidders' Questions				Entity's (DABS) Responses
1	Can we get the outline drawing of the substation? How much area has been allocated for the SS site?				The substation area covers approximately 25 acres of land.
2	For the water tower, do we need to supply the structures?				Yes
3	For structural foundations, what will be the required concrete compressive strength of the RCC?				Contractor should consider As per design
4	What will be the tentative dimensions of the warehouse?				25x15 meter
5	What are the requirements for the “Temporary site facilities and office for employer staff”?				Contractor should consider for employer controller engineers Accommodation and site facilities.
6	What will be the dimensions of the boundary wall?				The substation area covers approximately 25 acres of land.
7	In the general layout diagram, a future bay provision has been shown. Will the successful contractor be required to perform any work for it?				Contractor should consider switchyard area for grounding, control room as per single line diagram.
8	The payment terms for the project are complex. While there is a BoQ present in the tender, which includes quantities for supplies, the payment terms mention milestone payments. This could create challenges for the contractor in maintaining progress. Could you kindly revise it to a more conventional payment structure of 80% pro-rata payment, 10% upon completion, and 10% upon operational acceptance?				The proposed payment term is not accepted by DABS. Please follow the payment term mentioned in SBD.
9	We have additional queries regarding the payment structure:				
	SI.	Particular	% of project value	Query	2. It is clear during the implementation of project.
	1	Design Acceptance	3%	No questions	3. First the schedule plan for supply of electrical equipment should prepared by coordination of employer, after receiving of each packing of equipment contractor should shows the delivery of plant and equipment to the final destination, after approval of the quality control department contractor could there demand for payment.
	2	During Project Implementation	2%	When exactly this payment be released?	4. As per contract the payment will be pay based on Monthly progress report.
	3	Supply on Pro-rata	55%	Can the contractor claim on Pro-rata basis? As example, if the Transformer supply is completed can 100% of the Transformer payment be done as soon as it's supplied?	

	4	Installation on measurement and approval	25%	How will the approval be done while quantities are on Lump sum basis?	
	5	Testing and commissioning	10%	No questions	
	6	Handover	5%	No questions	
10	Will any advance payment be provided against an equivalent amount of an advance guarantee?				Advance payment is not considered by DABS.
11	As per the terms of payment, DABS will retain 10% as retention, in addition to the 5% PBG, which will remain valid until the DLP. This condition seems unusual. We request that the retention be amended to nil.				As per the SBD the 5% PBG will be released after successfully implementation and handover of project within contract period, and only 10% retention will remain until the DLP.
12	Can a bidder quote prices in USD, and can the bid currency itself be in USD?				Please follow the ITB 20.1 and ITB 33.1 in Section II. Bid Data Sheet of SBD . Essential instructions are given.
